Call for Entries: The 6th Emirates International Poster Festival (EIPF) 2024 — 'AI Futures: Creativity Meets Technology'
In alignment with the UAE's National Strategy for Artificial Intelligence 2031 and in response to our evolving world, the Cultural and Scientific Association "NADWA" is organizing the 6th edition of the Emirates International Poster Festival (EIPF) in November 2024, under the theme "AI Futures: Creativity Meets Technology."
Objectives and Theme
The Emirates International Poster Festival (EIPF) aims to bridge culture and innovation. This forward-thinking approach celebrates diversity in artistic expression and explores how technology can enhance cultural narratives. As a premier platform for poster design in the MENA region, EIPF attracts participants and audiences from around the world, fostering global dialogue and collaboration.
This edition of EIPF showcases the intersection of art and technology, specifically focusing on how artificial intelligence is influencing and shaping the future. It serves as a platform for dialogue, collaboration, and inspiration, bringing together artists, designers, and innovators to explore the potential of AI in various creative fields.
Theme Description
This year's festival highlights AI's role in driving progress, enhancing creativity, and fostering global connections. Participants are invited to address critical contemporary issues and promote social change through innovative design. The theme encourages designers
