2nd INTERNATIONAL CONGRESS on ENGINEERING and ARCHITECTURE

22-24 April 2019, Marmaris / Turkey

Invitation

Dear Colleagues

Welcome to 2nd International Congress on Engineering and Architecture (ENAR-2019) Marmaris / Turkey. This three-days conference will be held in Sentido Orka Lotus Beach Hotel, Marmaris / Turkey during 22-24 April 2019. The official presentation language of the ENAR is English or Turkish. Abstracts and Full Papers can be written as English or Turkish language in microsoft word. Participants can submit Three Papers with fee for this congress. It will be published in end of May 2019 as The Congress Proceeding e-Book. The ENAR 2019 aims at presenting current researches being carried out in the areas of Engineering and Architecture Sciences for scientists, scholars, researchers and students from the universities, technologists, entrepreneurs and policy makers all around the World. Thus, The ENAR, Marmaris/Turkey provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration. We hope that you can join us in the ENAR-2019 Marmaris / Turkey with new insights. We look forward to welcoming you to Alanya, where is a fascinating nature wonder in Turkey. ENAR Congress Covers The New Criteria for YÖK Academic Incentive Regulation. The Congress Will Provide Attendance of Spearkers and Researchers From Different Countries. The Congress will Provide Attendance of Speakers and Researchers from Different Countries. For coming and attending to this congress, Thank you very much, Best regards

Abstract

Rural areas are intense places for agricultural activities. Therefore, rural development in developing countries is considered to be synonymous with agricultural development. Studies aiming at the development and development of rural areas are gathered under the name of regional physical planning. The method of this planning is a detailed study that includes social, economic, cultural and physical elements. One of the works made for this purpose is land consolidation projects. İn our country, however different infrastructure arrangements are made under the land consolidation heading, ecological approaches are an unobtrusive element of these activities. İn this study, was tried to determine extent compliance with the ecological approaches the land consolidation projects carried out in Erzurum. İn this research, Beypİnarİ project realized in Erzurum - Aziziye District was discussed.

Key Words: Land consolidation, ecological approaches, Erzurum
